

The Challenge

The City of Palm Bay Florida Police Department was looking for a more efficient and streamlined method of tracking their evidence/property within their primary and secondary storage locations. They also were interested in facilitating the recording of chain of custody transactions, updating location and disposition of evidence/property in real-time and facilitating annual audits.

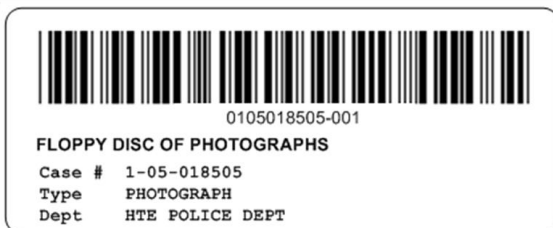

"Quatred's mobile solution has greatly improved our mass update time frame and makes it so much easier to maintain our evidence/property inventory."

Debbie Lugo, Materials Management Officer

The Solution

QUICK® Public Safety Mobile Computing/Bar Coding Interface for Crimes. Features Include:

- (☛) Online real-time access to Superior applications
 - (☛) Work in the office over a wireless local area network (WLAN)
 - (☛) Work on the road over a wireless wide area network (WWAN)
- (☛) Streamlined processing via bar code scanning
- (☛) Bar Code label design and printing capability
- (☛) Evidence/Property Physical Inventory
- (☛) Mass Update
- (☛) Check In/Check Out
- (☛) Property Tag Summary

"I would like to thank the Quatred staff for being very helpful whenever we come across a situation that is operator error or a software issue. They always respond the same day and walk us through step by step."

Robin Renkens, Materials Management
