

The Challenge:

- Do you need to track every movement of evidence within the department?
- Do you want to meet CALEA requirements for chain of custody and have a record of every person who has handled evidence\property?
- Do you want to be able to view every movement of evidence\property as a chain of custody transaction?

If you answered "yes" to any of these questions, you should consider deploying the QUICK® Bin Transfer CC Add-on Module! It automatically creates chain of custody transactions as a byproduct of mobile bin transfers!

QUICK® Bin Transfer CC Add-on Features:

- Online real-time access to NaviLine® Crimes Chain of Custody information
- The automatic creation of chain of custody transactions for every mobile bin transfer!
