

Are you tired of manually performing a count of your fixed assets? Do you want to eliminate manually recording asset counts and then keying them into the system at a later time? Do you want to increase the accuracy of your physical count?

The **Asset** Physical Count module is a mobile extension of CentralSquare's ONESolution™.

Asset Physical Count Features:

- Wireless freedom & flexibility
 - ◆ Work in the office over a wireless local area network (WLAN)
 - ◆ Work on the road over a wireless wide area network (WWAN)
- Offline capability when you're not connected to any network
- Ability to print barcode labels or encode RFID tags
- Increased accuracy via barcode scanning or RFID reading
- Reduction in errors
- Streamlined counting that eliminates data entry
