

Mobile Fixed Assets Physical Inventory

Are you tired of manually tracking assets, recording the tag ID and where they are located and then having someone reconcile the count with your fixed asset inventory records? Are you tired of trying to read someone else's handwriting? Are you tired of asset tag numbers being entered erroneously? Do you want to eliminate redundant paperwork, streamline fixed asset inventory reconciliation and significantly increase your accuracy?

If you answered yes to any of these questions, then QUICK[®] Mobile Fixed Assets for Innoprise Suite is the answer! This module is a mobile extension of the Innoprise Suite Fixed Asset Physical Inventory process.

QUICK[®] Mobile Fixed Asset Inventory Features:
