

Mobile Fixed Assets Interface for MUNIS

Are you tired of manually performing an inventory of your fixed assets? Do you want to eliminate manually recording asset counts and then keying them into the system at a later time? Do you want to increase the accuracy of your asset inventory?

If you answered yes to any of these questions, then the QUICK® Mobile Fixed Assets Interface for MUNIS is the answer! This module is a mobile extension of Tyler Technologies MUNIS functionality.

QUICK® Mobile Fixed Assets Interface for MUNIS Features:

- Wireless freedom & flexibility
 - ◆ Work in the office over a wireless local area network (WLAN)
 - ◆ Work on the road over a wireless wide area network (WWAN)
- Online real-time access to Tyler MUNIS applications
- Ability to print bar coded labels
- Increased accuracy via barcode or RFID scanning
- Reduction in errors
 - ◆ Elimination of paperwork
- Elimination of information redundancy
 - ◆ Manually record transactions
 - ◆ Enter information at a later time
- Fixed Asset processing
