Mobile Interface for MUNIS

Are you tired of writing down the tasks you perform and then having someone else key them into the system at a later time? Are you tired of trying to read someone else's handwriting? Are you tired of item number or account numbers being entered erroneously? Do you want to eliminate redundant paperwork, streamline inventory transactions and significantly increase your accuracy?

If you answered yes to any of these questions, then the QUICK® Mobile Interface for MUNIS is the answer! This module is a mobile extension of Tyler Technologies MUNIS functionality.

QUICK® Mobile Interface for MUNIS Features:

- Wireless freedom & flexibility
    - Work in the office over a wireless local area network (WLAN)
    - Work on the road over a wireless wide area network (WWAN)
