

When the outcome of a critical court case is riding on a key piece of evidence, you can't afford to take chances. Countless hours of police work (analysis, investigation, case preparation, etc.) are invested in the management of evidence & property. You need complete confidence that your hard work is being properly documented and tracked.

The QUICK® Evidence/Property module is a mobile extension of the NaviLine® Public Safety and Justice crimes software that manages every piece of evidence throughout the chain of custody, from acceptance to disposal, return or auction.

QUICK® Evidence/Property Features:

- Online real-time access to NaviLine® applications
 - ◆ Work in the office over a wireless local area network (WLAN)
 - ◆ Work on the road over a wireless wide area network (WWAN)
- Streamlined processing via barcode scanning
- Barcode label printing capability
- Evidence/Property Physical Inventory
- Mass Update
- Check In/Check Out
- Property Tag Summary

Dept HTE POLICE DEPT

It was a pleasure working Quatred in implementing their Mobile Computing and Bar Code solution for SunGard Crimes Evidence/Property Tracking. The mobile interface allows our Evidence Technicians to process all Evidence\Property related transactions with their mobile computers by simply scanning Evidence/Property barcodes and selecting the desired function (Mass Update, Chain of Custody, Evidence/Property Physical Inventory, Tag Inquiry, etc.). It eliminates all manual paperwork and streamlines the entire process!
