## QUICK Gov<sup>®</sup> Kiosks

Self service kiosks help reduce staff and office space requirements because one employee can look after multiple self-service kiosks. You can better utilize their manpower for non-routine and more productive customer service. A kiosk can be operated unattended for extended service hours and at off-site locations. With self service kiosks, users can spend as much time as needed on the kiosk retrieving necessary information or details resulting in much higher satisfaction. Self service kiosks are easy to use. The user has to simply follow the on-screen instructions.
